DIGITAL EXHIBIT

The Digital Exhibit allow professional sports teams to use scoreboard displays, retailers to use video networks and other community crossroad venues with video systems to pay tribute to our all volunteer military. Each time a picture is displayed, Americans are reminded of the honor, devotion, commitment and daily sacrifices made by our all volunteer military and their families members who stand by them, wait by the phone, check the news, check emails and receive the knock at the door indicating that the ultimate sacrifice was made in protection of our freedom and of freedom around the world. The exhibit gives much deserved recognition to the incredible unsung talent and bravery of U.S. Military Combat Photographers, who captured these awesome images under extreme conditions. The American spirit that's on display in each picture will fill fans, patrons and guest with an overwhelming feeling of pride, admiration, respect and honor for our country and our soldiers as American Eagle Heroes.
